

FISHING, AQUACULTURE, AQUARIOTECHNIC

MARINE STUDIES, TECHNIC REALISATIONS

Artificial reef and fish repopulation by larval colonization

Concept and production of artificial reef and Fish Artificial Nursery Devices, monitoring

Marine aquaculture

Consulting and management, technic audit and water treatment

Aquariotechnic

Concept research, casework, production and process studies

Evaluation and expertise

Preliminary studies, feasibility studies, environmental impacts, scientific monitoring

Submarine equipment

data loggers(t° , $S^{\circ}/^{\circ\circ}$ etc...), plankton sampler, carrying out on place, audit
